

Three Efficient Spring Medicines

NOTE—If your blood needs purifying, if you have no appetite, if you have that spring tired feeling, you need Hood's Sarsaparilla. If you are anemic, pale and nervous, you need Peptiron Pills. If you are constipated, with sluggish liver, you need Hood's Pills. If your blood is impure, if you are anemic and nervous, constipated besides—you need all three medicines. Get them today.

Cuticura Healed Itching Eczema on My Little Boy Writes Mr. Jorgenson

"My little boy two years old was suffering with eczema for about a year, his face being almost covered with sore eruptions and pimples. I had him treated and tried many remedies but all failed to help. The skin was sore and inflamed, and the rash itched badly causing him to scratch the breaking out all the time, and he would carry his hands to his face to scratch while asleep, waking him. The eruption also caused disfigurement. "Somebody advised me to try Cuticura Soap and Ointment so I bought a cake of Cuticura Soap and a box of Ointment. They brought relief right away and before the first box of Ointment was used the first box of Ointment was healed." (Signed) Otto V. Jorgenson, Kingston, Me., Sept. 14, 1916.

Cuticura Soap and Ointment work wonders in all cases of skin troubles but its properties are so mild and delicately combined that it is ideal for every toilet use. For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. R, Boston." Sold everywhere.

GERMANS ARE ENLISTING.

Faster Than Other Nationalities in the Middle West.

Milwaukee, April 26.—There are four times as many men of German parentage enlisting in the navy at the local office as sons of parents born in all the allied countries together, and more than men of native-born parents, according to figures compiled by Lieut. Frank Chapman, naval reserve officer.

Out of 154 enlisting, 57 were of German parentage, 53 of American parentage and 13 of countries at war with Germany.

"A Horseshoe with every Tire"

THIS "wish you well" stuff is all right for conversation, but I must deliver more than that or go out of business. Therefore, I investigated before I tied up with DIAMOND "Squeegee" Tires.

What I found in Diamond performance looked good to me.

So when we say that Diamond Tires are good enough for us to stake our reputation on, we mean that Diamonds are mighty good tires.

You don't need to pay a cent more than the price of a Diamond Tire for all the service and mileage you can ever hope to get from any tire.

Get the habit of coming into our store for free air, gasoline and accessories.

Let us look your present tires over occasionally. We may be able to tell you how to get more mileage out of them.

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.

WARNS BRITISH OF STARVATION

Lord Devonport, the Food Controller, Calls on Nation to Reduce Consumption of Bread.

London, April 26.—The British public was solemnly warned yesterday by Lord Devonport, the British food controller, that the country's shipping was being depleted daily in large volume and that severe privations menaced the nation before the next harvest was reached. Lord Devonport's warning was issued in the House of Lords in response to a question by Lord Lamington as to what success has attended the efforts at voluntary rationing and whether the government intended to resort to compulsion.

In a long reply Lord Devonport recited the extensive efforts being made by the press, pulpit, and schools, and also by local committees, to impress on the community the urgency of food restrictions. He said that it might be described as a general election on a grand scale, with the view of soliciting the allegiance of every citizen, particularly the women, to reduce their consumption of bread.

GREAT FREIGHTER ARRIVES.

Statendam, Reported Torpedoed by Submarine, Reaches American Port.

New York, April 26.—The 32,120-ton passenger steamship built for the Holland-American line in England, under the name of "Statendam," and taken over by the British government in 1914, for war purposes, reached an American port yesterday under a White Star line name.

The arrival of this vessel refutes reports received here from Berlin in March indicating she had been torpedoed and sunk. The German report told of the alleged sinking of a "34,494-ton transport" and marine men were inclined to believe she was the Statendam.

Designed as a modern passenger liner for New York-Batavia trade, the ship was never completed as such. Where there were intended to be magnificent carved and decorated stairways, saloons and cabins, now only rough woodwork appears. The vessel has been used as a transport for troops and supplies, but her present service is that of a freighter.

WAS CLEAN HIT SAYS CAPT. RICE

Commander of the Mongolia Tells About Sinking a Submarine

ARMED STEAMSHIP GUNNERY GOOD

The Mongolia Was Steaming Fast, but Shot Shattered Periscope

London, April 26.—Capt. Rice of the American steamship Mongolia, which has arrived at a British port, told the Associated Press yesterday that the Mongolia had fired the first guns of the war for the United States and sunk a German submarine.

The submarine, Capt. Rice said, was about to attack the great liner, in British waters, on April 19. He declared there was absolutely no doubt that the U-boat was hit and that there was every reason to believe it was destroyed.

The naval gunners on board made a clean hit at one thousand yards. The periscope was seen to be shattered.

Even more pertinent a fact, as regards the ultimate fate of the submarine was that the shell disappeared immediately after the hit was made. The captain said that a shell always ricochets in the water and can be seen again unless it finds the mark. Oil also was seen on the water after the submarine disappeared.

The Mongolia was going at full speed and was a long distance away when the spray and foam subsided, but from the bridge the officers observed the spot through their glasses, and they are confident the submarine was sunk.

The periscope was sighted dead ahead on the last afternoon of the voyage. The captain gave the order for full speed ahead with the intention of ramming the submarine.

The periscope disappeared and a few minutes later reappeared on the ship's broadside. The gunners fired, hitting the periscope squarely and throwing up a mountain of water.

Capt. Rice, outlining the incident, said: "For five days and nights I hadn't had my clothes off, and we kept a big force of lookouts on duty all the time. It was 5:20 o'clock in the afternoon of the 19th that we sighted the submarine. The officer commanding the gunners was with me on the bridge when the first mate cried: 'There's a submarine off the port bow.'"

"The submarine was close to us—too close, in fact, for her purposes, and she was submerging again in order to maneuver in a better position for torpedoing us."

New York, April 26.—The American steamship Mongolia, a vessel of 13,630 tons, owned by the International Mercantile Marine company, left an American port for England on April 7 on her second trip since Germany's submarine declaration of Feb. 1.

MONEY AVAILABLE TO HELP FARMERS

Postal Savings Banks Will Help Those Who Are Trying to Meet the Crop Needs of the World at the Present Time.

Washington, D. C., April 26.—A portion of the \$125,500,000 deposited in the postal savings banks of the United States has been made available to help the farmers meet the war food crisis.

The trustees of the postal savings bank system have adopted a resolution making farm loan bonds issued under the federal farm loan act, acceptable at par to secure postal savings deposits. United States government, Philippine islands, Porto Rico and District of Columbia bonds are the only other bonds which enjoy this privilege.

The federal farm loan board is in receipt of many reports from all parts of the nation indicating that the farmer is making desperate efforts to respond to the nation's appeal to increase food production, but that he is greatly handicapped by the shortage of labor and the high price of seed. He needs more capital with which to purchase seed and he needs additional capital to provide himself with labor-saving machinery to overcome the labor shortage. A telegram received by the farm loan bureau says that in a single county in Montana 300,000 acres of spring wheat will be seeded if the capital for the purchase of the necessary seed can be supplied.

The federal farm loan act was adopted "to provide capital for agricultural development." Applications for loans have already been received which indicate that the farmers will require more than \$100,000,000 of capital through this agency this year. Only 5 per cent will be charged for this money where, previously, rates of from 5½ to 15 per cent have been charged.

Within a short time the first issue of the farm loan bonds will be floated to provide this capital which will be loaned to the farmers. These bonds will be sold to investors and will bear 4½ per cent interest. These bonds are "instrumentalities of the government" and as such will be exempt from all form of taxation; they will be engraved by the United States bureau of engraving and printing and protected by the United States secret service and will be issued in denominations of \$25 and upward so as to appeal alike to small and large investors. A ready market for these bonds means more capital immediately available to enable the farmer to meet the present emergency.

The importance of rendering the farmer assistance by providing additional capital is emphasized in the following appeal of President Wilson recently addressed to the National Agricultural society in convention:

"At the present moment it is our plain duty to take adequate steps that not only our own people be fed, but that we may, if possible, answer the call for food of other nations now at war."

"In this greatest of human needs I feel that the American farmer will do his part to the uttermost."

"By planting and increasing his production in every way possible, every farmer will perform a labor of patriotism for which he will be recognized as a soldier of the commissary, adding his share to the food supply of the people."

A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Barre people.

C. H. Simonds, carpenter, 6 Beckley court, Barre, says: "My kidneys caused me considerable annoyance by irregular action. The kidney secretions contained brickdustlike sediment and were highly colored. I had such sharp, shooting pains across my back that they interfered with my work. I used Doan's Kidney Pills, and the benefit they gave me has remained permanent."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Simonds had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

GREAT REJOICING BY RHEUMATIC CRIPPLES

If So Crippled You Can't Use Arms or Legs Rheuma Will Help You or Nothing to Pay.

If you want relief in two days, swift, certain, gratifying relief, take one-half teaspoonful of Rheuma once a day.

If you want to dissolve every particle of uric acid poison in your body and drive it out through the natural channels so that you will be forever free from rheumatism, get a 50-cent bottle of Rheuma from the Red Cross Pharmacy or any druggist to-day.

Rheumatism is a powerful disease strongly entrenched in joints and muscles. In order to conquer it, a powerful enemy must be sent against it. Rheuma is the enemy of rheumatism—an enemy that conquers it every time.

Judge John Barhorst of Fort Loraine, Ohio, knows it. He was walking with crutches; to-day he is well. It should do as much for you; it seldom fails.—Adv.

General Sporting Notes.

John Olin, who met and defeated Dr. Roller in Boston two weeks ago in a wrestling match, has signed to meet Strangler Lewis at Chicago on May 2 and will receive \$3,000 for his end of the match regardless of the outcome.

Christy Mathewson seems to be building a strong foundation for his first full season in the big show and has Cincinnati higher in the percentage column already than she often reaches.

The Red Sox were easily tamed when Mogridge held at bay these sons of swat to a record of no hits.

—they do more than please the taste

A cigarette that simply pleases the taste does only a part of what a cigarette should do—

Besides pleasing the taste, Chesterfields do another thing, a new thing—

Chesterfields let you know you are smoking—they "SATISFY!"

And yet, they're mild!

The blend does it—it's the unusual skill in proportioning the pure, natural Imported and Domestic tobaccos. And the blend can't be copied.

Chesterfields will prove to you that there can be more to a cigarette than good taste. Try them and see. Today.
